Jane B. Watson, Ph.D.
Associate Director
Water Quality Protection Division
EPA Region 6
214 665 6653

Let's pull up our latest material, I don't think status has changed since our meeting with ADEQ and GP?

Thanks

Jane

Jane/Claudia,

Please have your folks put together a current status to send to Marylee, including both the permit and designation/UAA issues.

Larry

I have an important question

ADEQ submitted a permit to EPA. The Permit is for Georgia Pacific Paper Mill in Crossett, Ark.

Couple of years ago ADEQ refused EPA's order to redesignate Coffee Creek

UAA they are using is flawed and may be done in 1954.

ADEQ refuses to redesignate coffee creek.

EPA employee in the renewal application mentioned that ADEQ could continue to dump 85 million gallons of black liquor to Louisiana a day and ADEQ gave them permission to ignore the user attainability guide for another five years.

People are very upset about this.

Can your people look into this?

Folks are thinking EPA has not done their job.

THANKS SO MUCH

marylee
